⇒TOTALING AN ORDER⇐

When writing up an order for a customer:

1. Have them fill out their name, address, phone and email completely.
2. List product item numbers, description, and price.
3. Add all product prices for a product total.
4. Shipping is 10% of the product total minimum \$5. There is an additional \$5 fee if an order is shipped direct to a customer.
5. Add product total and shipping together to get the taxable total.
6. Tax is _____% of the product and the shipping charges. (changes where the host has it delivered)
7. You can accept **VISA, MasterCard, or Discover**. Personal Checks made out to me. **Credit Cards preferred.** Make sure all orders are paid before you submit the party
